Light: Front /Rear

Other Notes:

TIRES

Maximum tire width you want to use:

BODY MEASUREMENTS

While measuring you should be wearing cycling shorts and no shoes.
Get someone to help you with the measuring process.

A Height:**B Body Length:**

Measure from your clavicle notch to the ground.

C Inseam:

Place a hard cover book between your legs and raise it until snug against your crotch. Make sure the book is level. Measure from the floor up to the top of the book.

D Thigh Length:

Kneel on the floor. Measure the same way as you did for the inseam.

E Shoulder Width:

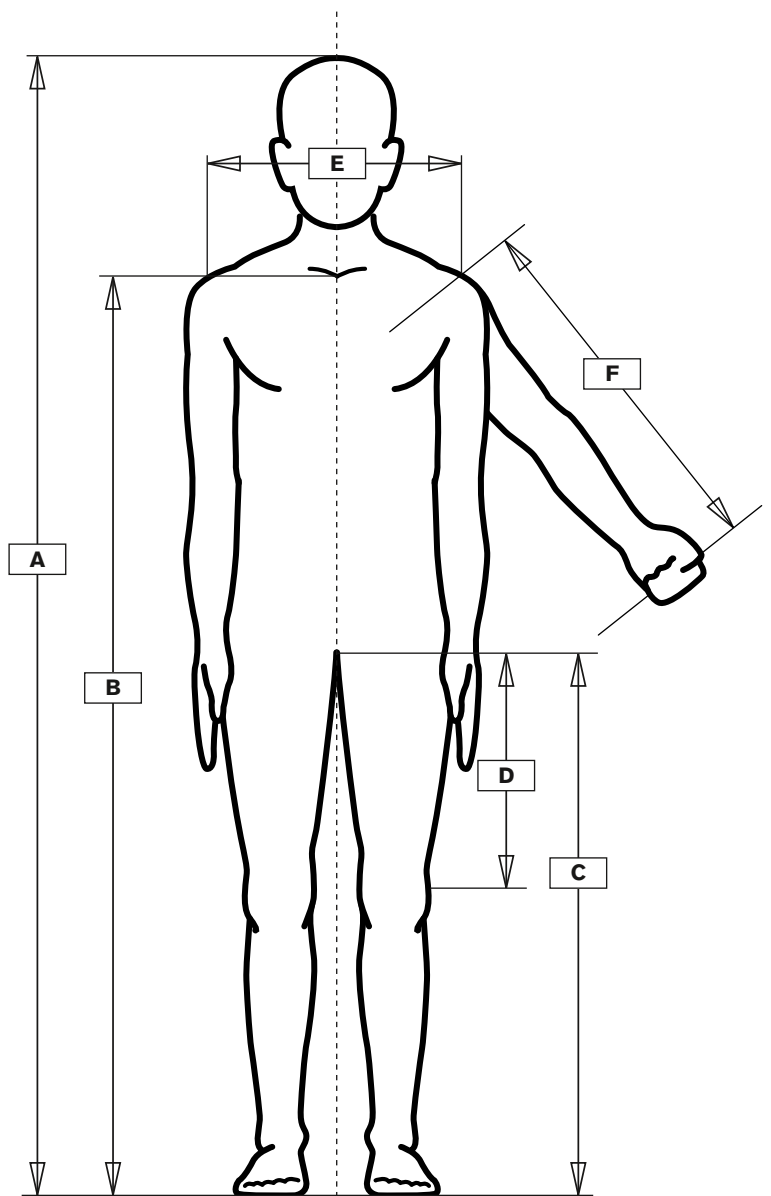

Locate the ends of your acromiion bones. Have someone measure across your back from one tip of one acromiion bone to the other.

F Arm Length:

Make a fist around a pen or similar object. Hold your arms out at a 45° angle from your side. Have someone measure from the tip of your acromiion bone to the object in your fist.

G Foot:

List your shoe size.

Weight:
